

Features & Advantages of Poly Flex EPDM Membrane

Poly Rubber Products have been in the rubber technology industry since 1961.

They are considered in the forefront of this industry with their field proven application techniques for roofs, pools, water/chemical/drainage, water storage, concrete pits and underground construction.

Poly Flex EPDM Membranes Offer the Following:

*** Longer Life**

EPDM rubber provides longer life than other conventional rubbers due to its excellent UV resistance.

*** 20 Year Warranty**

Poly Flex EPDM membranes are backed by a 20 year manufacturers warranty.

*** Proven Performance**

Poly Flex EPDM membranes have proven performance over many years.

*** Manufactured to Exceed International Standards**

Poly Rubber Products manufacture the Poly Flex membrane to exceed the international ASTM D6134 and RMA Roofing Council's stringent requirements.

*** Superior Lap System**

The superior adhesive lap system allows Poly Flex membranes to be used in extreme conditions where ponding may be an issue such as low sloped roofs or containment systems.

This adhesive lap allows Poly Flex to be used in more areas than conventional membranes.

This also eliminates the requirement for traditional lap tapes, reducing build up in lap areas.

*** Resistance to Extreme Temperatures and Movement**

Poly Flex membranes will withstand extreme temperatures (-50Deg C to 150Deg C) and has a minimum of 300% elongation flexibility.

*** Minimum Maintenance Required**

Poly Flex requires only minimum maintenance.

*** Lower Heat Buildup on Grey Membranes**

Grey Poly Flex membrane is fully grey, reducing heat buildup in comparison to black or grey/black membranes. This helps reduce condensation issues.

*** Superior Flexible Service**

Poly Rubber Products have proven themselves in the industry by providing a superior service to their clients. They have established strong relationships by listening to their clients needs and satisfying the demands of the industry.

Many large contracts throughout the world have been awarded to Poly Rubber Products' clients due to the manufacture of a quality product, superior service and solid backup support provided by the manufacturer and supplier.

*** Long Term Partnership**

Roofing And Waterproofing Solutions Ltd are proud to be the Australasian distributor for Poly Flex membranes and a long term partner with Poly Rubber Products.
